

## Sports and sports management :

Sport is one of the activities that most of the students like to participate whether it is at the school, state or district level. Different students will be having interest in different sports. But sometimes the students may not be able to participate in such games since their names will not be in the participants list. This will happen only if the names are taken through the pen paper method. To solve these problems, the sports management system can play a very good role. The students will be able to register their names in different sports of their choice at the college level or state level through this application.

As a sports person, you can get training from various institutions of Sports Authority of India. In India, there are various institutes and academies under the Sports Authority of India (SAI) that impart training to young talents to transform them into talented sports persons. Other than SAI, there are many state levels and private organizations that support sports enthusiasts.
